

ENUHDE-IFP

Fingerprint Security HDD Enclosure

The ENCORE ENUHDE-IFP Fingerprint Security HDD Enclosure is a hard disk enclosure integrated with fingerprint verification technology to give you the maximum protection for your data. Our external Enclosure with Fingerprint security feature provides the ultimate solution for you. With the protective data feature, it can eliminate the threat of unauthorized access for your important company files or valuable picture you took with your love ones.

When you setup the enclosure with new HDD, you can partition the disk into Public and Secured Drive. The Public Drive is viewable by all users and Secured Drive will only be accessible through either fingerprint verification or password. You can encrypt and decrypt files on your computer and this HDD using the Finger-Verify software.

This enclosure can be used with any available 2.5" IDE HDD. It is a plug & play device and provides fast file transfer speed.

Features and Benefits

- Protect Sensitive Data with Fingerprint Access
- Safely Travel with Your Data
- Transport Music, Movies, Photos and Documents with Ease
- Easy to Use with Plug-and-Play Feature
- Use chip based sensor for live-scan capturing of 3D-fingerprint minutiae
- False Rejection Rate (FRR) : 1/1,00 & False Acceptance Rate (FAR) : 1/1,000,000

Specification

Interface to PC	USB 2.0, backward compatible with USB 1.x
Interface to device	2.5" IDE hard drive, up to 750GB
Data transfer rate	up to 480 Mbps
Indicators	Power on & Data Access
Power Source	USB port Bus power
External power jack	Supported (not include in the package)
Dimensions	8 x 13 x 2 cm (W*H*L)
OS supported	Windows® XP / 2000; Windows Vista®
Unit Weight	90g
Operation temperature	0 ~ 40 °C
Storage temperature	-5 ~ 50 °C
Operating Humidity	0%~80% RH, non-condensing
Certification	FCC, CE, RoHS

Application

1. Restrict access to sensitive data with fingerprint verification.
2. Take your files to anywhere you go with a peace of mind.
3. Access your files by scanning your fingerprint.
